SPRING SURVEY 2026

Birds of the river valley

What eight weekends of counting told us

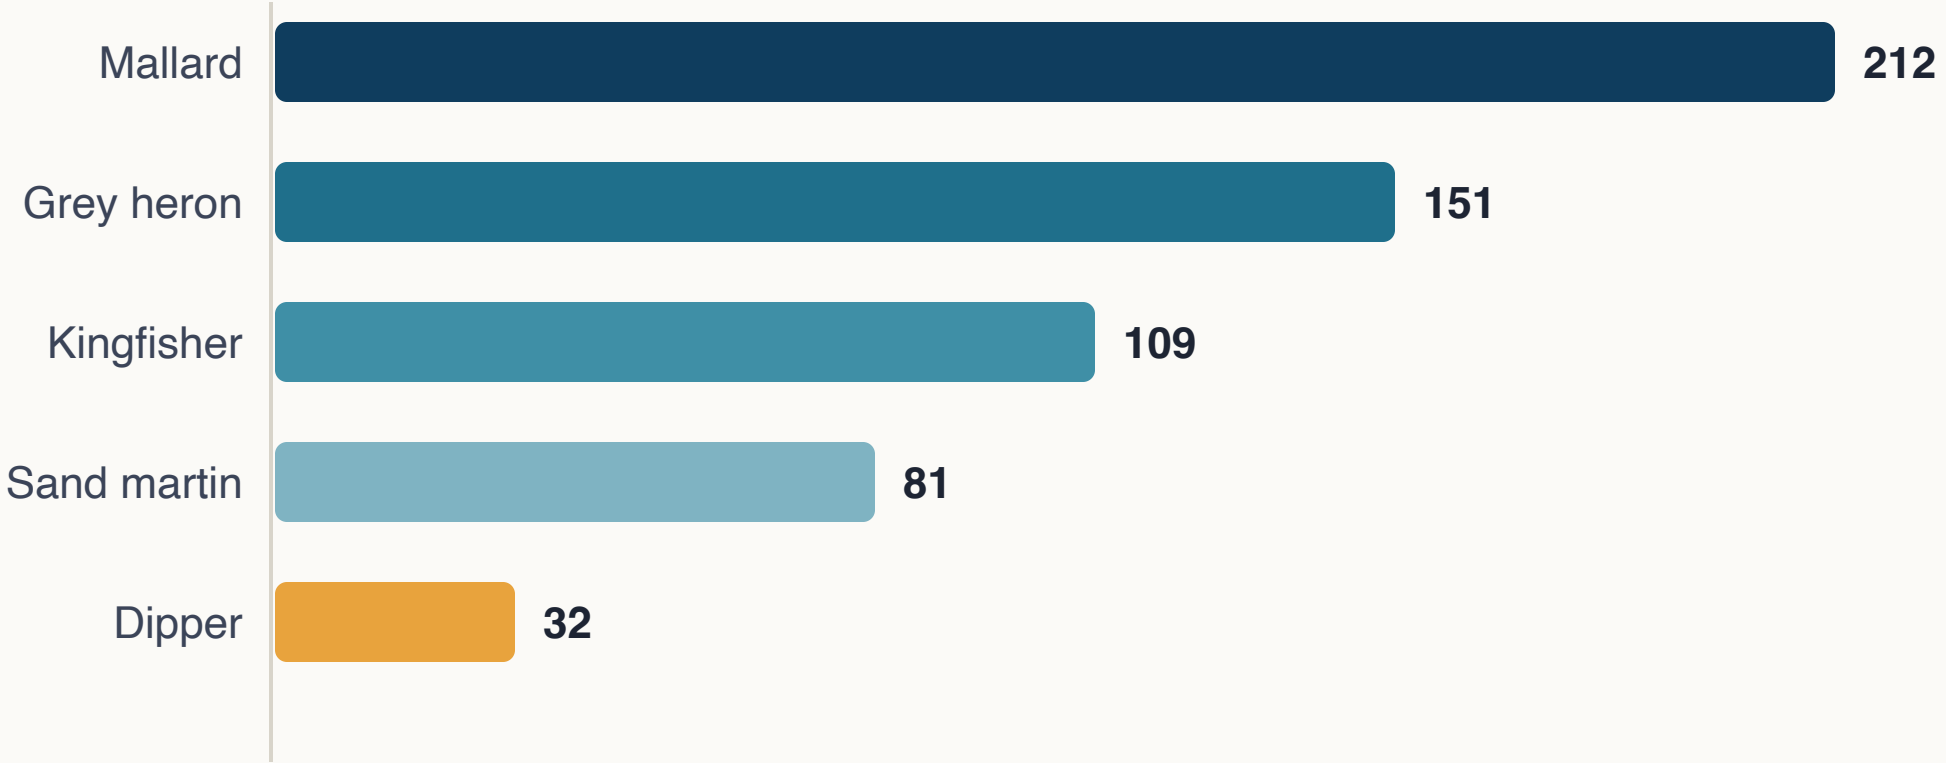

METHOD

How we counted

- Six fixed points along four kilometres of river
- Ten minutes per point, every Saturday at dawn
- Every bird seen or heard, with the time and species

RESULTS

Sightings by species

TAKEAWAYS

What we'd do next year

+38%
more kingfishers than last spring, mostly at the weir

2
new nesting dipper pairs under the old footbridge

6 am
is early enough. Counts after seven dropped by a third
